

## Sr./DevOps Engineer

Dele Health is on a mission to save lives through fall prevention, and prevent one million falls by 2024. Learn more at: <https://delehealth.com/about/>

We are seeking experienced DevOps Engineers to join our team. In this role you will manage the Dele Health Cloud Platform to ensure quality of service as well as supporting development of the platform - including work on partner integrations.

Candidates must have 5+ years operating hands-on in a cloud environment using Google Cloud Platform, Node.js, Javascript, Kafka, Mongo, Docker/Kubernetes, Jira and Confluence, along with strong verbal and written communication skills, a positive attitude and the desire to automate complicated things.

Ideal candidates will have a background working with PHI data, as well as HIPPA and SOC compliance, plus exposure to Webhooks, Azure, and/or DataBricks.

We offer 100% remote work, excellent compensation and benefits including 401k plan and stock options. If you're looking for the opportunity to bring the above technical skills to a venture that is truly focused on making people's lives better -- we'd love to hear from you!
