

VP/Director DevOps

Dele Health is on a mission to save lives through fall prevention, and prevent one million falls by 2024. Learn more at: <https://delehealth.com/about/>

We are seeking an experienced Technical Operations leader to take operational ownership of the Dele Health Cloud Platform. In this role you will hire, train, organize and motivate a team of DevOps professionals to operate and expand our services, ensure compliance with SLAs and a fantastic experience for all customers and partners involved. You'll also be a key part of our product development team, ensuring that the platform evolves in line with modern technology trends and customer requirements.

Candidates must have at least 5+ years operating a SaaS/Cloud platform including DevOps, help desk support, ticketing systems, system monitoring and alerting, secret and certificate management, disaster recovery, etc. along with excellent written and verbal communication skills, ability to pick up new tech quickly, and a strong desire to work collaboratively.

Ideal candidates will have hands-on experience with Google Cloud Platform, Azure, Node.js, Kafka, Mongo, webhooks, Docker/Kubernetes plus experience with PHI, HIPPA and SOC compliance.

We offer 100% remote work, excellent compensation and benefits including 401k plan and stock options. If you're looking for the opportunity to bring the above technical skills to a venture that is truly focused on making people's lives better -- we'd love to hear from you!
